CERTIFICATE # 169

This certificate is not a representation, warranty, or guarantee of product performance or certification of code compliance. For details of the product warranty, consult the product manufacturer.

NGBS Green Certificate #NGBSGCP-000169

Product: SmartBase Hybrid - Recycled Paving Sub-base and Engineered Materials

Manufacturer: SmartSite, LLC distributor for SoilSafe, Inc. Recycled Materials

The product(s) shown on this report have been independently verified as eligible products for use in achieving points toward project certification under ICC-700 National Green Building Standard. Home Innovation Research Labs authorizes accredited verifiers to award points toward certification without additional documentation when the product(s) is used as noted below.

2020 NATIONAL GREEN BUILDING STANDARD			
PRACTICE #	PRACTICE DESCRIPTION	POTENTIAL POINTS AVAILABLE	ADDITIONAL CONDITIONAL OF USE TO AWARD POINTS
604.1	Building materials with recycled content are used for two minor and/or two major components of the building. 1-6 points available.	1-6	Points awarded for 2 products w/ recycled content. This product is greater than 75% recycled content. This product and another product with at least 75% recycle content must be used for major components of the building. Lesser points available for lower recycled content in the second product or for use in minor components.
610.1.2.1	A product with improved environmental impact measures compared to another product(s) intended for the same use is selected. 2 points for product with 4 impact measures; 3 points for product with 5 impact measures. 10 points max.	3	The LCA information available at http://smartsitemanagement.com/Recycled.html must be used in the product selection process.
403.10(2)	Recycled asphalt or concrete with at least 50 percent recycled content is utilized in the project. 2 points available.	3+	Three points are awarded for every 10% of the total building materials used in the development of the land that is the SmartBase product.

GRESB Scoring Potential

GRESB is a framework widely used by commercial and multifamily organizations that measures the ESG (Environmental, Social, and Governance) performance of a company's real estate portfolio. Certification to the following 2020 NGBS practices indicates that this product potentially contributes to one or more GRESB Indicator(s). For more information, visit www.ngbs.com/ESG and www.GRESB.com.

NGBS Green Certificate #169

Product: SmartBase Hybrid - Recycled Paving Sub-base and Engineered Materials

Manufacturer: SmartSite, LLC distributor for SoilSafe, Inc. Recycled Materials

Practice #	Practice Description	GRESB Indicator
604.1	Building materials with recycled content are used for two minor and/or two major components of the building. 1-6 points available.	DMA1 Materials selection requirements
610.1.2.1	A product with improved environmental impact measures compared to another product(s) intended for the same use is selected. 2 points for product with 4 impact measures; 3 points for product with 5 impact measures. 10 points max.	DMA1 Materials selection requirements, DMA2.1 Life cycle assessments , DRE1 ESG strategy during development
